**SPECIAL PRESENTATION – Presentation by Chief Jackson and Officer Starrett –
Crime Prevention**

Woodinville Police Officer Sheila Starrett described her 20-year career with King County. She is in the process of updating the City's Block Watch information.

Officer Starrett explained that in the past National Night Out has been a central community event. This year's event on August 2, and future events, will be organized by Block Watch captains in their own neighborhoods. She explained although she is involved in crime prevention, her primary role is reactive patrol. She circulated materials related to crime prevention including a handbook given to new Block Watch captains.

She responded to Commissioners' questions regarding the size area typically covered by a Block Watch, what is required to start a Block Watch, involving Neighborhood Block Watches in emergency preparedness, dissemination of crime information to the community, publishing Block Watch information in the *Woodinville Weekly*, the Police Department's House Check Program, online crime watch information, crime prevention goals, assignment of the School

Resource Officer during the summer, and training available for Block Watch captains. She relayed the Police Department's plans to offer "Refuse to be Victim" workshops to citizens.

She described organizations that oversee activities: ESCA provides CERT training, Medical Reserve is done at the King County level, Neighborhood Watch is overseen by the local Police Department, VIPS would be overseen by the Police Department, but King County does not have a VIPS program. Woodinville Fire and Rescue plan to start a Fire Corps.

Discussion followed regarding CERT training provided by ESCA and obtaining a count of CERT-qualified individuals in Woodinville.

Ms. Sheeks relayed the City was not receptive to providing information regarding shelters. The largest organizations in the City are already Red Cross designated shelters.

Woodinville Fire and Rescue Commissioner Kevin Coughlin relayed that the need in an emergency is not facilities, but staffing. There are numerous facilities in Woodinville that are in the national sheltering system. He urged citizens to take shelter training.

Subject: Emergency Shelter Policy Review

ISSUE: Shall the Emergency Preparedness and Public Safety Commission review and recommend updates to the City's Emergency Shelter Policy?

RECOMMENDATION: To review and discuss changes to the Emergency Shelter Policy.

BACKGROUND/DISCUSSION: With the adoption of City Resolution No. 371, adopted on November 17, 2009, Woodinville implemented the Comprehensive Emergency Management Plan (CEMP). The CEMP provides guidance for mitigation, preparedness, response and recovery activities for emergencies. The chapters of the CEMP are designated as Emergency Support Functions that address different aspects of emergency response. Emergency Support Function (ESF) 6: MASS CARE, HOUSING AND HUMAN SERVICES, describes the City's responsibilities and actions related to emergency sheltering.

One of the Commission's 2011-2012 work plan items is to review the City's CEMP and Emergency Shelter Policy. Staff will review ESF 6 to familiarize the Commission with the Policy and to determine if any changes need to be made.

ALTERNATIVES:

1. Approve staff recommendations and plan for the development of a new Emergency Shelter Policy.
2. Suggest alternative policy options for the Emergency Shelter Policy.
3. Request further information from staff.

RECOMMENDED MOTION: FOR DISCUSSION ONLY.

I. INTRODUCTION

A. Purpose

To provide a coordinated method of mass care activities including; shelter of people and animals, feeding and first aid following an emergency or disaster; to operate a disaster welfare information system to collect, receive and report information about the status of victims and assist with the reunification of family members; and to coordinate the distribution of emergency relief supplies. Human services may include related recovery efforts such as counseling, benefit claims assistance, identification and postal services, financial services and associated human services that can be delivered through Federal Disaster Assistance Service Centers, as needed. Long-term community recovery needs are addressed in ESF #14: Long-term Community Recovery.

B. Scope

This ESF addresses responsibilities and priorities for mass care services that are needed during emergencies. Mass care services are a shared responsibility between City of Woodinville, the King/Kitsap County Chapter of the American Red Cross, the Emergency Services Coordinating Agency and other community and volunteer agencies.

The National Pets Evacuation and Transportation Standards Act of 2006 (H.R. 3858-PETS), requires local and state emergency preparedness authorities include plans for pets and service animals in disaster plans; grants FEMA the authority to assist states and local communities in developing disaster plans to accommodate people with pets and service

animals; authorizes federal funds to help create pet-friendly emergency shelter facilities; and allows FEMA to provide assistance for individuals with pets and service animals, and the animals themselves following a major disaster. Animal care and pet sheltering issues are addressed here, and more detail can be found in the Washington State and King County *Comprehensive Emergency Management Plan(s), ESF-11: Agriculture & Natural Resources*.

Initial response activities will focus on meeting urgent needs of victims. Recovery assistance available through local agencies and temporary housing, loans and grants for victims under federal disaster assistance programs may need to be coordinated with mass care activities in order to provide the best service to the community. A collaborative response by City, private and non-profit organizations will greatly benefit and facilitate mass care services in the Woodinville area.

II. POLICIES

- A. In circumstances where there is an immediate need for mass care services, the City of Woodinville may provide limited mass care services utilizing available facilities and resources on a temporary basis.
- B. The American Red Cross will assist in providing mass care services in accordance with policies and procedures governing the agency and will maintain administrative and financial control over its activities.
- C. All mass care and shelter services will be provided without regard to economic status or racial, religious, political, ethnic or other affiliation; and will attempt, but not guarantee, to meet current requirements for the *Americans with Disabilities Act* and the standards of the American Red Cross.
- D. Appropriate Federal, State and City, volunteer agency and private sector resources will be used as available.
- E. The Disaster Welfare Information will be gathered and disseminated only by the American Red Cross utilizing established procedures.
- F. Shelters for pets may be activated by City of Woodinville Parks and Recreation Department with help from local veterinary and volunteer animal care organizations. Pet shelters may be separated from shelters for citizens.
- G. The Washington State Departments of Agriculture (WSDA) and Fish and

Wildlife (WDFW) represent animal health concerns of the state which may involve the diagnosis, prevention and control of foreign animal diseases and diseases of public health significance, and assistance in the disposal of dead animals in accordance with Appendix B (*State Animal Response Plan*) of *Emergency Support Function 11 of the Washington State Comprehensive Emergency Management Plan*.

III. SITUATION

Serious damage to the community will quickly overwhelm local resources which have a primary function of gathering damage information and responding to immediate life threatening situations. Damage to roads, airports, communications and structures will hamper response efforts. Emergency workers may be injured, involved with personal problems resulting from the situation or be unable to reach their designated posts.

Hundreds of victims may be forced from their homes due to damage, environmental conditions or severe weather. There may be large numbers of dead or injured. Family members may be separated immediately following a sudden impact event. Transients, such as tourists and business travelers may be stranded long distances from home and require assistance.

There may be a requirement for shelter sites for hundreds to thousands of people and pets impacted by the disaster. Many will be separated from their families due to impassable transportation routes and gridlock.

IV. CONCEPT OF OPERATIONS

- A. The Parks and Recreation Department will be the primary City agency for establishing temporary mass care services and facilities until Red Cross and other disaster relief agencies establish operations. This may be as long as three days.
- B. Mass care activities undertaken by the City will support emergency operations by providing food, water and rest areas for City staff working during the emergency.
- C. Parks and Recreation will coordinate the use of City facilities and parks for use as mass care locations.
- D. Requests for establishment of Red Cross Mass Care Centers will be coordinated through the Emergency Services Coordinating Agency.

- E. Once the Red Cross has established mass care operations, ESCA will assist Red Cross as needed in the coordination of other local human service agencies and volunteer groups in support of mass care operations.
- F. Initial information to be released to the public regarding mass care facility services and locations will be coordinated through ESCA and the American Red Cross Public Information Officer if appointed. The Red Cross will normally take over the public information role for Red Cross activities once mass care operations are established.
- G. Parks and Recreation will be responsible for pre-identifying parks or other locations appropriate for recreational vehicles or camping and for identifying appropriate shelter locations within the city and for developing plans for shelter operation.
- H. Development Services is responsible for identifying and developing resource lists of local volunteer groups and organizations that will assist with mass care operations and assist those individuals with special needs who require special assistance.
- I. Parks and Recreation, with assistance from local animal welfare groups, is responsible for pre-identifying appropriate locations for pet shelters within the city and developing plans for shelter operation.
- J. Parks and Recreation will be the primary agency for providing food and shelter support to City employees working during emergency operations.
- K. The Woodinville/King County Police Department is responsible for providing security at shelter and mass care locations when necessary.
- L. Ongoing mass care and recovery assistance to victims after the disaster will be provided directly to the public through federal, state and county programs and through private agencies and local volunteer organizations.

V. PROCEDURES

- A. Development Services is responsible for developing policies and procedures for the use of City property and facilities for mass care operations. This Department is also responsible for developing resource lists and procedures for use by City staff for operating shelters prior to the arrival of Red Cross personnel.
- B. The American Red Cross and other agencies providing mass care

services have established procedures in place for providing mass care services to the community. These are separately published documents that are developed and maintained by the individual agencies and organizations. Volunteers and City staff working in support of these organizations are required to operate according to these procedures.

- C. Assistance for individuals with "special needs" during disasters will be coordinated with Public Health Seattle/King County, ESCA and local human service agencies.

IV. RESPONSIBILITIES

- A. City of Woodinville Parks and Recreation Department

- 1. Identify City property and facilities suitable for use as mass care locations.
