Cindy,

The good news is when I checked the boards by my home, they had been updated. The bad news is when I checked the post office, those notices for the Hearing Examiner hadn't been updated, can you look into why those were missed? Those have a real purpose, and I hate for even one concerned citizen not be able to attend and comment on such an important issue.

Thanks for your quick response on this. Have you been able to determine why my husband and I didn't receive a special meeting notice from the city earlier in the month? I obviously live close enough to be legally entitled to one, and am just curious as to why we (and whomever else) might have been overlooked.

Thanks again,

Susan Huso

Ms. Baker,

I live 2 feet from what would be the Montevallo development site, and looked last night at the city's official posting board on that property. The dates still reflect the old dates of 2/28 – 3/1. I'm thinking that should be changed since the meetings have been moved. When might I be able to see the new posting put up? It is a week away, and this is an important meeting for the community, I'm sure the city wants to make certain the community knows the dates have been changed, and when the new meetings will be held. This would also be a good time to let the community know they can address either development on either date.

I look forward to your prompt reply.

Thank you,

Susan
