

LPG Tank and/or System Installation (Commercial and Residential) IFC Permit Application Requirements

Fees: The fees listed are valid through December 31, 2017. The next fee adjustment will be effective January 1, 2018.

Install or Modify LP-gas system (Commercial)	\$387
Install Tank R-3 >500 gallons only (Residential).....	\$214

The following information is required to be submitted along with the City of Woodinville's permit application(s)* for LP-gas system installation.

Application must be complete. A separate International Fire Code Permit Application is required.**

The shaded area indicates the minimum information required for permit application acceptance by the City of Woodinville Permit Center. Final approval of permit will require that all information be provided, as applicable.

3 sets of cut sheets and site plans required.

- 3 sets manufacturer's literature for tank and all appurtenances
- 3 sets of scaled topographical site plans showing location of property lines, buildings, and building openings, roads, parking lots, easements, existing and proposed tanks.
- Owner's name, address, and phone number
- Contractor's name, address, phone number, and L & I license number.

The following information is required for final permit approval.

- Individual and aggregate tank capacities in gallons.
- Design criteria for tank protection from mechanical/vehicular damage.
- Design criteria for pressure limitation on tanks.
- Sample warning signs for tanks.
- Emergency shut-off – design & location

**Building and mechanical permits may also be required.*

***Please note: There will be a yearly International Fire Code permit renewal fee for commercial LP-gas systems of an aggregate quantity over 125 gallons. Renewal application will be done at time of annual inspection.*
